Title: Notes for the Council

Author: Seraphina  
-----

The rangers in Brae,  
feel that they are  
forgotten, they feel  
they  
need more recognition  
by the crown for  
remaining faithful and  
protecting the kingdom  
from the wild.  
Miners In minoc,  
Do not fare well their  
backs are sore from a  
hard days work, and they  
have been having difficult  
days, I provided a miner  
with ale, and they were  
appreciative to have  
someone reminisce  
trade tales with, they  
feel that wealth of  
mount  
kendall seems unending,  
but the wealth is  
unending but the health  
and wealth of who work  
for the crown is not.  
The farmers of britain,  
They are in good health,  
but, but they are  
struggling with this crop  
yield, alot of their crops  
this season has rotted,  
they required a gold  
donation which I provided  
to cover their shortfall.  
They were very  
thankful for my donation,  
but they mentioned their  
lives are hard when the  
crops dont come.  
Mages in moonglow.  
needed nothing, from me  
and were still very upset  
over the faction wars,  
They mentioned that the  
crown should grace them  
with their pressence, but  
they were very angry

about the constant inspections.

As they believe the inspections are under the fake guise of "fact finding" They were not helpful they mages are rather upset.

The Sailors of vesper, Are having great struggles, due to the issue of pirates, some of the sailors even require rescuing on dragon island, the sailors mentioned the crown needs to deal with the pirate issues as the waters of jhelom are swimming full of pirates. we were ambushed on dragon island, but it was nothing we were not able to handle. The survivors on the island will need rescuing as soon as possible.
